Ecole O'Clock | 2019-2020

Opquast — Web Quality Best Practices
Training | 2019

Mathematics & CS
Paris Descartes | 2008-2011

SUMMARY

Frontend engineering leader with 6+ years building regulated digital products in insurance and savings. Owner of frontend architecture across 10 production applications and 8 shared packages. Led a team of 4 engineers. Focused on reliability, GDPR compliance, and shipping high-quality user experiences.

LEADERSHIP & IMPACT

- Led and mentored a team of 4 frontend engineers through structured code reviews, pairing, and standards
- Designed frontend architecture across 10 applications and 8 shared packages within a Turborepo monorepo
- Delivered compliant subscription flows for 3 insurance providers (Kelia, Quanta, Garance)
- Built compliant UX flows for regulated financial processes and sensitive data handling (GDPR)
- Owned production reliability, release management, and incident response for frontend systems

EXPERIENCE

Germen
2021 - Present

Frontend Lead

- Led migration from CRA + Redux to Turborepo monorepo (10 apps, 8 shared packages)
- Designed and shipped a design system (25+ components) adopted across all products
- Delivered a React Native mobile app (Garance) and compliant subscription flows
- Modernized stack to Next.js 16 App Router, Server Actions, and tRPC
- Built advisor back-offices (Quanta, Dealbreaker) with integrations for 3 insurers
- Built tools automating collective fund transfers (Generali)

Skills: TypeScript, React, Next.js, React Native, Turborepo, Tailwind, shadcn/ui, tRPC, PostgreSQL, AWS

Studio Ambiant
2022 - 2023

Full Stack Developer

- Shipped end-to-end React/Node platform with back-office CMS enabling non-technical staff to manage content
- Designed MongoDB schema and REST APIs, delivering features from database to production UI

Skills: TypeScript, React, Node.js, MongoDB, Express, Docker

Collect For Good
2022

Full Stack Developer (Volunteer)

- Built a humanitarian logistics platform coordinating donation collection and transport
- Developed React frontend with Node.js/MongoDB backend under tight deadlines

Skills: React, TypeScript, Node.js, MongoDB, Tailwind

Tanke
2020 - 2021

Full Stack Developer

- Developed React applications and Node APIs powering influencer marketing campaigns for major brands
- Owned full stack delivery in fast-paced agency environment, from database design to production deployment

Skills: React, TypeScript, Node.js, PostgreSQL, MongoDB, Docker
